

THIYONIRAJ A

PHP & Laravel Developer

9944113790 | thiyoniraj1997@gmail.com | Perambur - Chennai

PROFESSIONAL SUMMARY

PHP & Laravel Developer with 3 years of experience building and maintaining scalable web applications across ERP and booking platforms. Proficient in Core PHP, Laravel, and MySQL, with hands-on work in RESTful API development, third-party integrations (ZeptoMail, Firebase), and dynamic front-end interfaces. Focused on clean database design, query optimization, and delivering secure, reliable features within Agile teams.

TECHNICAL SKILLS

Languages: PHP (Core PHP), SQL, JavaScript

Framework: Laravel

Database: MySQL

Front-End: jQuery, DataTables, HTML, CSS

APIs & Integrations: RESTful APIs, ZeptoMail, Firebase

Practices: Agile development, database design & optimization

WORK EXPERIENCE

Sri Hema Infotech — Chennai

July 2023 – Present

PHP & Laravel Developer

- Developed and maintained a College ERP system and a UK cab-booking platform end to end using PHP, Laravel, and MySQL, supporting day-to-day operations across multiple user roles.
- Designed and built core modules — students, staff, customers, vehicles, drivers, and bookings — with optimized MySQL schema and queries for faster, more reliable data retrieval.
- Developed RESTful APIs and integrated third-party services, including ZeptoMail for transactional email and Firebase for real-time functionality.
- Built interactive, responsive front-end interfaces with jQuery and DataTables to streamline data handling and improve user experience.
- Collaborated within Agile teams to deliver secure, scalable features on schedule.

Pamac Pvt Ltd — Saidapet, Chennai

Aug 2017 – Jan 2019

Data Entry Operator

- Entered and managed large volumes of data across company databases while maintaining data integrity and accuracy, and streamlined entry processes to improve efficiency.

PROJECTS

College ERP System — PHP, Laravel, MySQL, jQuery

- Web-based ERP managing academic and administrative operations across student, staff, and records modules.
- Built data-driven interfaces with jQuery and DataTables and optimized MySQL queries for reliable reporting.

UK Cab-Booking Platform — PHP, Laravel, MySQL, RESTful APIs, ZeptoMail, Firebase

- Online cab-booking application handling customers, vehicles, drivers, and booking workflows.
- Implemented RESTful APIs and integrated ZeptoMail (transactional email) and Firebase (real-time updates).

TRAINING & CERTIFICATIONS

Web Development Course

Nov 2022 – Jun 2023

- Comprehensive program covering PHP, MySQL, and core web development; built dynamic websites using HTML, CSS, and PHP with hands-on database design.

EDUCATION

B.Sc. Chemistry — Loyola College, Chennai (University of Madras)

2014 – 2017

LANGUAGES

English, Tamil
